# IS YOUR CAR READY FOR WINTER DRIVING?

From September 1st through May 31st, all vehicles operating on any roadway must be equipped with adequate snow tires or tire chains. Don't only rely on the 4-wheel drive; having adequate tires is essential.

Remember, you could be issued a citation if you get caught with improper tires. Do you know where that snowbrush/ice scraper is? After a storm, please clear the entire windshield and brush off the headlights and taillights!

Questions on adequate snow tires? Contact the Snowmass Village Police Dept. at 970-923-5330.

**Town of SNOWMASS Village**  
**Winter Safe Driving Tips**

- 1 DRIVE SLOWLY** - Slippery roads reduce the amount of traction your tires have, and winter conditions make it more difficult to control a vehicle. Always adjust your speed down to account for lower traction when driving on snow or ice.
- 2 ACCELERATE AND DECELERATE SLOWLY** - Apply the gas slowly to regain traction and avoid skids. Don't try to get moving in a hurry and take time to slow down for a stop and turns. Remember that tire traction diminishes on icy roads.
- 3 INCREASE YOUR FOLLOWING DISTANCE** - Allow plenty of space between your car and other vehicles. This increased margin of safety will provide the longer distance needed if you have to stop.
- 4 DON'T STOP IF YOU CAN AVOID IT** - There's a big difference in the amount of inertia it takes to start moving from a full stop versus how much it takes to get moving while still rolling.
- 5 DON'T POWER UP HILLS** - Applying extra gas on snow-covered roads will just make your wheels spin. Try to get a little inertia going before you reach the hill and let that inertia carry you to the top. As you reach the crest of the hill, reduce your speed and proceed downhill slowly.
- 6 DON'T STOP GOING UP A HILL** - There's nothing worse than trying to get moving up a hill on an icy road. Get some inertia going on a flat roadway before you take on the hill.
- 7 STAY HOME WHEN POSSIBLE** - Only go out if necessary. Even if you can drive well in bad weather, it's better to avoid taking unnecessary risks by venturing out.
