Public Comments

Have a comment for the Town Council? Complete the [Public Comment](#) form online. Staff may be following up with you with more information.

Call (970) 923-3777 and leave a voicemail message for Council or staff before the day of the meeting. Please specify that the message is intended for a specific meeting. Alternatively, you can provide written comments by [emailing the Town Council](#) at council@tosv.com.

TOWN BOARDS & COMMISSIONS

View the [calendar of all meetings](https://tosv.com/193/Town-Meetings) at tosv.com/193/Town-Meetings

The Town of Snowmass Village values and encourages citizen participation in local government processes. One way to get involved is through service on a volunteer board. Snowmass Village has 9 boards and commissions.

Boards & Commissions meet at regular frequencies, as determined by each board. Each board is responsible for specific areas of expertise and provide valuable advice and feedback to the Town Council. [Meeting agendas](#), [packets](#), and [minutes](#) are [posted regularly on the town's website](#).

Upcoming Boards & Commissions Discussion Topics:

Environmental Advisory Board (EAB)

- Mushrooms

Part-time Residents Advisory Board (PTRAB)

- Part-time residents survey review

Tourism Board

- Destination Management Plan

Planning Commission

- Workforce Housing Special Review
- Lighting Code

June Board & Commission Meetings:

- EAB - June 3- 3:30-5:00 p.m. - Small Conference Room, Town Hall
- Planning Commission - June 4 & June 18 - 4:00 - 7:00 p.m. - Council Chambers, Town Hall
- POSTR - June 11 - 5:30 p.m. - Council Chambers, Town Hall
- PTRAB - June 24 - 3:30 - 4:40 p.m. - Small Conference Room, Town Hall
- Tourism Board - June 12 - 9:00 a.m. - Council Chambers, Town Hall
- Town Council Meetings - First and Third Monday of each month - 4:00 p.m. - Town Hall Council Chambers
- Town Council Work Session - Second Monday of each month - 4:00 p.m. - Town Hall Council Chambers

TOWN COUNCIL ADOPTS 2025 GOALS STATEMENT

During a regular meeting of the Town Council on Monday, April 7, members of the Snowmass Village Town Council voted unanimously to approve the 2025 Town Council Goal Statement.

Town Council works collaboratively to develop their goals after each new council is seated following an election. The goals are used to direct policy, appropriate funds, and to provide direction for staff.

The overarching priority for this Town Council is: Passionately Protect the Community Character of the Village by Promoting Balance and Emotional Connectivity. To protect the unique character of the Village and to enhance emotional and physical connections to the community, the Town Council has identified four areas of emphasis:

1. Identify & Provide More Affordable Housing
2. Embrace High Quality Balanced Destination Management
3. Develop a Detailed Area Plan in and Around the Snowmass Mall
4. Strengthen Community Engagement to Foster Emotional Connectivity
5. A Continued Commitment to Sustainability and Resiliency
6. Help Year-round Residents Thrive, Not Just Survive
7. Investing in Community infrastructure

The full 2025 Council Goal Statement can be viewed online at tosv.com/402/Strategic-Goals. Previous goals documents are also available.

COMMUNITY WILDFIRE DISCUSSION

As wildfire seasons grow longer and more intense, the need for informed community dialogue has never been greater. Join us on **Wednesday, June 18 at The Collective** for a screening of the acclaimed documentary *Elemental: Reimagining Our Relationship with Wildfire*, followed by a community panel discussion with local experts.

Event Details:

- **What: Elemental Community Video Plan & Panel Discussion**
- **When: Wednesday, June 18**
- **Where: The Collective**
- **Doors Open: 5:30 PM**
- **Movie Begins: 6:15 PM (90-minute runtime)**
- **Panel Discussion: 7:45 PM**

Elemental is a powerful, visually stunning film that challenges conventional thinking about how to live with fire and manage risk. This event invites the public to not only watch the film but to engage in a meaningful conversation about wildfire preparedness and resilience in our community.

Following the screening, a panel of local experts will discuss key themes from the film and take questions from the audience:

Panelists:

- **Scott Thompson, Roaring Fork Fire Authority**
- **Kevin Warner, US Forest Service**
- **Dave Heivly, Snowmass Village Police Department**

This is a free public event. Light refreshments will be available.

The Town of Snowmass Village completes wildfire mitigation projects throughout the village annually. Projects include the thinning of overgrown vegetated areas, removing fire fuels (dead or diseased vegetation), and increasing the defensible fire areas near buildings and infrastructure. This work improves the health of Snowmass Village's natural areas and helps reduce the risk of wildfire in and around the village.

For more information, please visit tosv.com/594/Wildfire-Mitigation
RSVPs are appreciated:

WILDFIRE PREPAREDNESS IN PITKIN COUNTY

Your wildfire emergency plan must be prepared well in advance of a fire and shared with all members of your household. Use the checklists provided by Pitkin County to help you prepare your family for a wildfire emergency.

How to Prepare for Wildfire Season
Resources for preparing for wildfire season including how to create an emergency plan, what to include ...

pitkinemergency.org

HAVE EMERGENCY PREPAREDNESS QUESTIONS?

Want to learn more about emergency preparedness or have questions about your home? Perhaps you have specific concerns about your home or know someone with special needs?

Call the Snowmass Village Police Department to schedule a time to talk with Police Chief Brian Olson. Chief Olson has offered to meet with community members about their specific needs or concerns about emergency preparedness.

Call today - (970) 923-5330

RECEIVE EMERGENCY NOTIFICATIONS THROUGH PITKIN ALERTS

Pitkin Alert is an emergency notification system that alerts residents and business owners through text messages, email, cell or land line phones.

In the event of a wildfire incident, Pitkin Alert will send you up-to-date notifications about the fire, associated road closures and evacuation orders. You must register for the free alerts at PitkinAlert.org.

The graphic is a rectangular box with a white left half and a black right half. On the white side, there is a Wi-Fi symbol above the text 'PITKIN ALERT' in bold, black and red letters. Below this, it says 'Pitkin County Emergency Notification' and lists four bullet points: Wildfire Threat, Road Closures, Traffic Delays, and Flooding. On the black side, it says '...what you need to know' in white, followed by 'Sign Up Today' and 'www.PitkinAlert.org' in white, and 'It's Free!' in red.

WANT TO REPORT AN EMERGENCY, INCIDENT, OR CONCERN?

To report an emergency, please dial 911.

To report an incident or accident that is not an emergency, please contact the Police Department at 970-923-5330.

To report a concern, comment, or compliment and you do not require an immediate response, please submit through our [online request tracker](#). We are always looking for better ways to serve the community, and appreciate your feedback.

TOWN CONSTRUCTION PROJECT UPDATES

The Town of Snowmass Village works year-round to provide core municipal services such as snow removal, road and infrastructure maintenance, transit, and transportation services, parks and trails maintenance, recreation programs, public safety, and strong fiscal management.

Occasionally, the Town also works on special long-term projects and initiatives. These projects typically span multiple years, and the Town seeks community input and participation to make them a success.

**View All Town Projects & Initiatives at
www.tosv.com/405/Town-Projects-Initiatives**

Stay Connected on Town Projects!

Learn more about the workforce housing project at the

Draw Site

Why build housing at the Draw Site?

- The Town's Comprehensive Plan identified a need for **383 additional workforce housing units** to meet the demand.
- The **2021 Workforce Housing Master Plan** identified the Draw Site as a location for future housing.
- **In late 2022, the Council directed staff** to pursue development at the Town Hall Draw.
- During the November 2024 General Election, **Snowmass Village voters approved** a ballot question authorizing funding for the Draw Site project.

What's the cost?

- Estimated Monthly Rental Costs (not including utilities):
 - **Studio:** \$1,145 - \$1,445
 - **One Bedroom:** \$1,435 - \$1,735
 - **Two Bedroom:** \$1,650 - \$1,910
 - **Three Bedroom:** \$2,110 - \$2,660
- Estimated Project Cost: **\$71,770,164** (no new taxes)

How many units?

- **Total Housing Units:** 63
- **Total Parking Spaces:** 102

Engage & Learn More:

Learn more about the planned Snowmass Mall

Transit Center

Why add a Transit Center to the Snowmass Mall?

- Combines **local & regional transit** in one location.
- Meets **current demand** - RFTA & Village Shuttle have dedicated spaces.
- Improve **transit users' experience** - adds restrooms and improves waiting areas.
- Improve **accessibility** and **welcome experience** to the Snowmass Mall.

How did we get to this point?

- **Over 40 years of public transit** planning and service.
- Support from **local, regional, and federal** transit partners.
- **Conceptual design & environmental assessment** completed.

What's the cost?

- The project is estimated to cost between \$40-60M, depending on design elements.
- Current funding structure:
 - Local sources: **\$9 million**.
 - Federal sources: **\$13.5 million**.
 - Approximate **\$20M funding gap** to be filled by a combination of local, state, and federal sources.

Engage & Learn More:

Learn about the early childhood education project at the

Little Red Schoolhouse

What's happening at the Little Red Schoolhouse?

- Expanding childcare capacity from approximately 25 students to approximately 65 students.
- Adding four new classrooms in an updated building.
- Improving playground and outdoor learning spaces.

Why expand access to childcare in Snowmass Village?

- Adequate access to childcare is an important component of thriving communities.
- In 2021, Town Council adopted a goal to “Explore an enhanced use of the Little Red Schoolhouse to provide an improved and enlarged childcare/early learning facility.”
- The existing childcare facility has exceeded its capacity and is currently on a waitlist.

What's the cost?

- Estimated Project Cost: **\$8,500,000**
-

TOWN CONSTRUCTION PROJECT UPDATES

Upper Brush Creek Trail Project - This project is currently under construction and is tentatively scheduled to be completed in the next 2 weeks, subject to weather. The remaining scope includes site cleanup and trail paving. This work will require the closure of the Brush Creek trail section from Wood Road to Creekside during this construction.

Multimodal Trail from Mountain View to Snowmass Mall - The contractor has completed the drainage repairs below Brush Creek Rd. The final paving and guardrail is complete. The pavement markings were applied the week of May 27, and the handrail will be finished the week of June 2.

Melton Ranch Trail Project - The gas company has completed the installation of the gas line. Gould Construction has mobilized and started removing the old timber walls and constructing the new block retaining walls. The wall construction process will have minor traffic impacts, and flaggers will be on site to assist with vehicle and pedestrian movements during material deliveries. The paving of this path is scheduled for the week of June 27. The user path connection from the Upper and Lower Woodbridge Rd intersection to the Snowmass Center trail connection will remain open.

Upper Woodbridge Road Culvert Project - The Phase 2 platform for vehicles and pedestrians has been installed and opened to traffic. The contractor has removed the old culvert, and a temporary bypass pipe is currently installed. The box culvert is scheduled to be delivered and installed on June 5 & 6. Then the contractor will start the process of backfilling, wing wall construction, and rip rap installation, which will take a few weeks. Unexpected utility conditions were discovered during excavation. The Town is working with Snowmass Water & Sanitation District (SWSD) to determine the extent of replacement needed while this project is under construction. All work associated with the excavation will occur behind the barriers and should not affect traffic.

Wood Bridge Decking Project - The project is complete and is open.

May 28, 2025

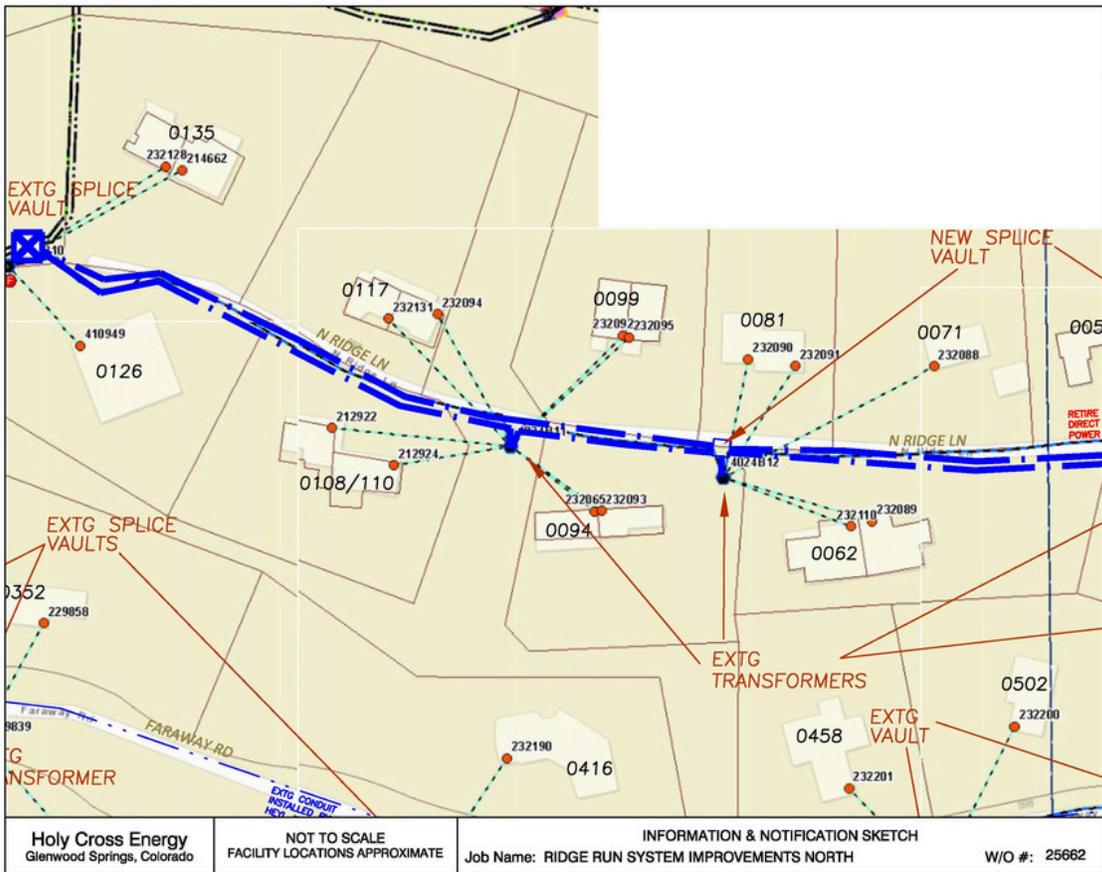

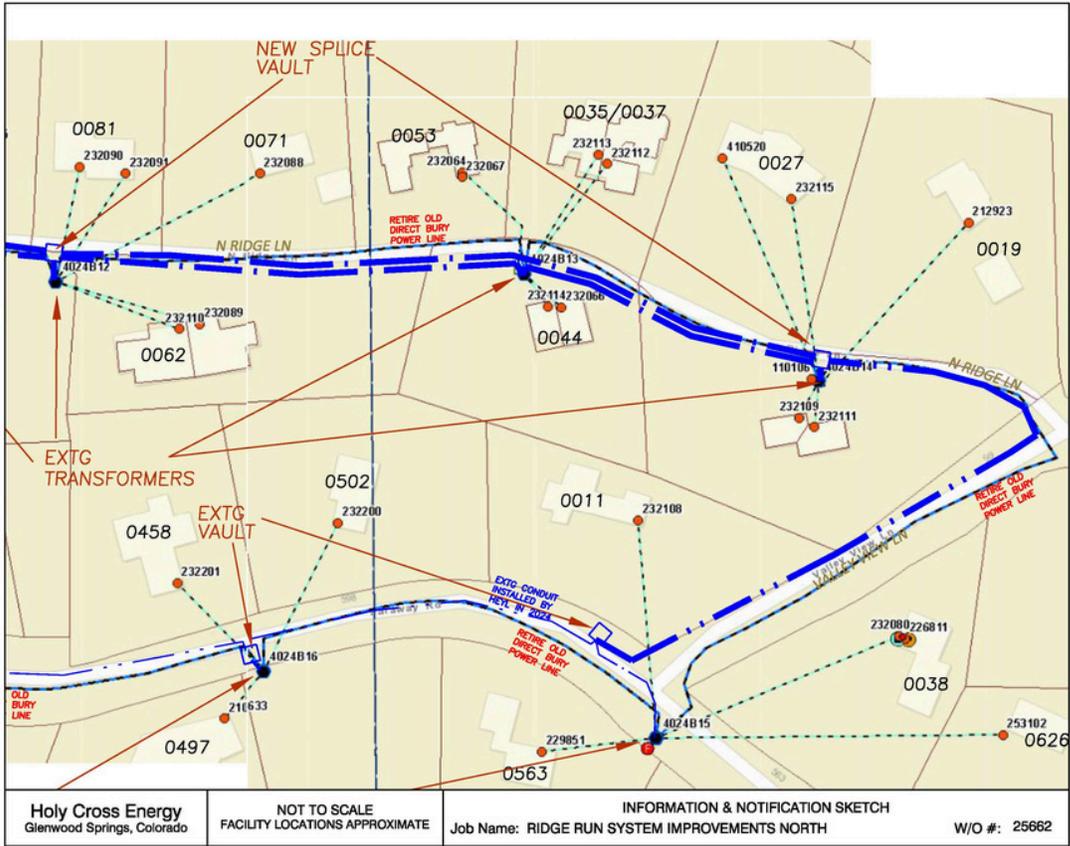

TO WHOM IT MAY CONCERN

FARAWAY RD.- SYSTEM IMPROVEMENT PROJECT

This letter is to inform you about construction work which is ongoing in your neighborhood in Spring/Summer of 2025. Holy Cross Energy needs to replace old underground cable as shown on the attached preliminary construction map. Blue lines indicate new construction.

At the present time, we have already had line locators and surveyors onsite to mark out existing conditions. Advanced Underground Construction, hired by Holy Cross Energy, will be potholing existing utilities in preparation for trenching or boring, installing conduit at a depth of 4', while tying into existing transformers along the way. After that work is complete, a Holy Cross Energy crew will follow with cable pulling equipment to pull electric cables through the new conduit system. You will be contacted by phone if there will be a need for a scheduled outage.

If you have any questions, please call Libby Cowling at Holy Cross Energy, 970-947-5428 office, or send an email to lcowling@holycross.com.

RESIDENTIAL COMPOSTING

The Town of Snowmass Village offers all residents residential composting free of charge. Containers for the home are available at Public Works and Town Hall and the public drop-off container is located at the Public Works facility at 3745 Owl Creek Road.

Small amounts of food-soiled paper and compostable packaging are acceptable, including pizza and paperboard take-out containers, Please tear pizza boxes and paperboard containers into pieces before composting.

Please, no styrofoam, waxed, or plastic-covered containers, glass, silverware, cans, bottles, or plastic bags. Garbage and recycling must be kept separate from food composting materials.

SUSTAINABILITY RESOURCES & REBATES FOR RESIDENTS & BUSINESSES

Cutting your carbon footprint doesn't mean you have to drain your savings.

CORE- Community Office for Resource Efficiency

CORE Offers Funding & Support to Improve Buildings in Pitkin, Eagle, & Garfield Counties

Connect with CORE's Energy Concierge to Take the First Step

The Community Office for Resource Efficiency (CORE) provides enhanced services and funding across Pitkin, Eagle, and Garfield Counties. Property owners can receive up to \$200,000 per project for energy-saving improvements like heat pump installations, induction cooktops, and building envelope upgrades.

CORE's Energy Concierge offers free guidance on:

- Project planning and design
- Available financing and incentives
- Contractor matching
- Building code compliance

Additional support, including free energy assessments, is available for under-resourced property owners. Funding is open to residential, multifamily, and commercial properties.

Visit aspencore.org/energy-concierge or call 970-925-9775 to get started.

Holy Cross Energy Rebates

EXPANDED SUMMER SHUTTLE SERVICE

Beginning June 2 through September 21, residents and visitors of Snowmass Village can enjoy expanded transit service seven days a week, from 6:45 a.m. to 12:00 a.m., thanks to the State of Colorado's Zero Fare for Better Air Program.

During this period, the Snowmass Village Shuttle will offer free curb-to-curb service across all accessible, public, paved roads within the Town of Snowmass Village. Riders can request rides via the Village Shuttle App, making it easier than ever to get around town without the hassle of parking or driving.

Curb-to-curb service means the shuttle will pick up passengers near the bottom of their driveways or designated accessible locations. Passengers should be prepared to enter and exit the vehicle independently.

Fixed Routes Still in Operation: Route #3 and Route #4 will continue to operate on their regular schedules. Residents living within $\frac{1}{4}$ mile of these routes are encouraged to continue using them during operating hours. For detailed schedules and stop locations, please visit villageshuttle.com/133/Routes-Schedules.

Please note that the expanded curb-to-curb service will not be able to accommodate bicycles.

This enhanced transit offering aligns with the state's commitment to reducing emissions and improving air quality during the busy summer season. Whether heading to work, the trail, or dinner in the Village, let the shuttle take you there — for free.

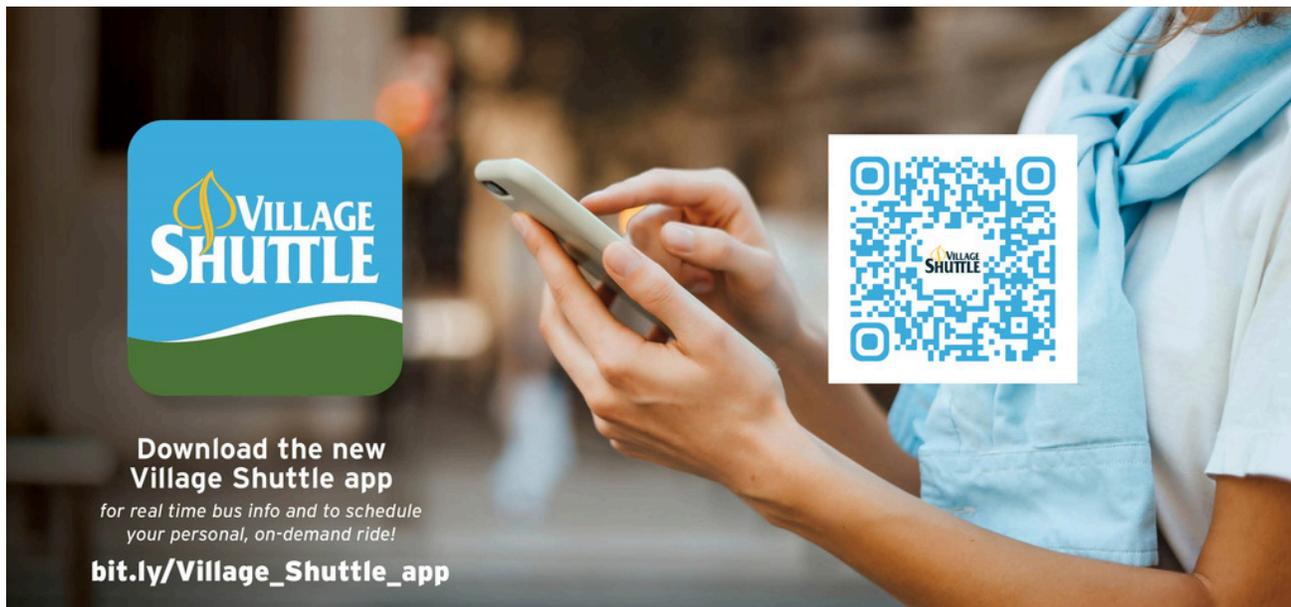

For more details, schedules, and to download the app, visit villageshuttle.com.

DOWNLOAD THE VILLAGE SHUTTLE APP!

Check out the Village Shuttle app. Download the Village Shuttle app in your preferred app store or by scanning the QR code below! Using this app you can request a ride and see real time Village Shuttle information.

Rides under 30 minutes are always free.

After 30 minutes, Late Fees are \$5/min.

- » WE-cycle is designed for short, transit-oriented rides.
- » Hop on a WE-cycle e-bike to get to and from housing, local businesses, events and the bus.

ART IN MOTION

In celebration of the bikeshare expansion, Anderson Ranch Arts Center, WE-cycle, and the Town of Snowmass Village unveil *Art In Motion*. This dynamic exhibit transforms each station, and select e-bikes, into a gallery on-the-go featuring artwork from eight Anderson Ranch-affiliated artists.

Explore the artwork [here](#).

Access 580+ bikes at 100 stations in the Roaring Fork Valley.

CYCLE

WE-CYCLE RIDER TIPS

Keep your rides under 30 minutes.

Looking to ride longer than 30 minutes?
Rent a bike from a local shop.

Get the green light.

Green light flashes when bike unlocks and,
when returning a bike, it confirms bike is locked.

Ride safely and on paved trails.

Check your speed, be courteous, wear a helmet,
ride on bike paths, and obey signs, and signals.

Going to Aspen?

Take RFTA and WE-cycle awaits you in Aspen.

INSCRIBIRSE

SEASONAL WILDLIFE TRAIL CLOSURES

The Snowmass Village Animal Services Department enforces trail closures enacted to protect sensitive wildlife habitats. Per Section 10-29: Seasonal Trail Closures of the TOSV Municipal Code, it is unlawful of any persons to use by any means the following trails during wildlife-sensitive periods, as follows:

- Anaerobic Nightmare Trail: April 25 through June 27 (opens 28th)
- Sequel Trail: April 25 through June 20 (opens 21st)
- Tom Blake Trail: April 25 through June 20 (opens 21st)
- Government Trail east of Elk Camp Work Road: May 15 through June 27 (opens June 28th)
- Rim Trail North: December 1 through May 15 (opens May 16th)
- Seven Star Trail: December 1 through May 15 (opens May 16th)
- Upper North Mesa Equestrian Trail: December 1 through May 15th (opens May 16th)
- Viewline/Deadline/Ditchline: December 1 through May 15 (opens May 16th)
- Vista Trail from Powerline Trail to Government Trail is closed April 25-June 20 (opens June 21)
- Vista Trail from Government Trail to the Elk Camp Restaurant is closed May 15-June 27 (opens June 28)

Trail closures are strictly enforced by the Town's Animal Services Division, in partnership with US Forest Service, Colorado Parks & Wildlife, and Aspen Skiing Company. Wildlife monitoring cameras are in use in closed areas.

There is a zero-tolerance policy for trail closure violations and fines can reach up to \$5,000.

[Learn more online: snowmassrecreation.com/201/Seasonal-Trail-Closures](https://snowmassrecreation.com/201/Seasonal-Trail-Closures)

PLEASE RESPECT SUMMER CLOSURES!

COW ELK RETURN TO THE SAME AREA EACH SPRING TO HAVE THEIR CALVES.

THESE AREAS AND TRAILS WITHIN ARE CLOSED DURING THIS VITAL TIME.

HUMAN DISTURBANCE CAN GRAVELY REDUCE CALF SURVIVAL RATES AND LEAD TO HERD DEPLETION.

ELK MAY EVEN ABANDON HISTORICAL CALVING AREAS AND STRUGGLE TO FIND A NEW HOSPITABLE AREA.

Coyotes Are Active In This Area

Coyotes in populated areas are typically less fearful of people. They have been known to attack pets and approach people too closely. Please read and share these tips with your children.

If a Coyote Approaches You:

- Do not run or turn your back
- Be as big and loud as possible
- Wave your arms and throw objects
- Face the coyote and back away slowly
- If attacked, fight back

Protect Your Pets:

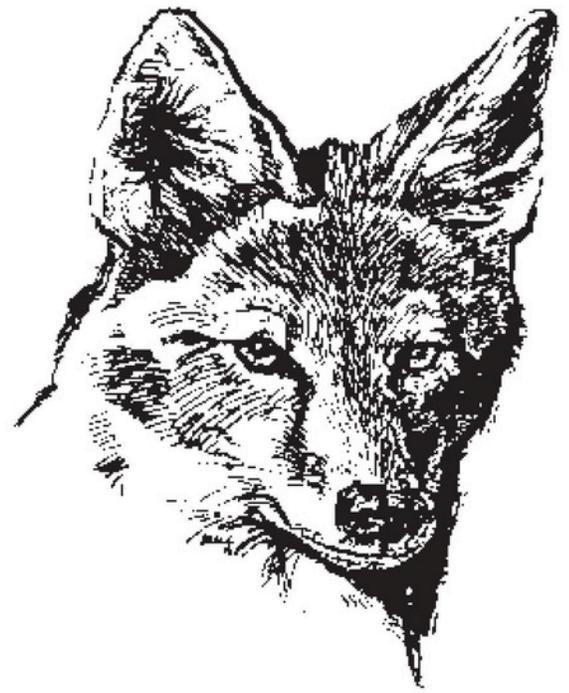

- Keep pets on a short leash
- Use extra caution dusk through dawn
- Avoid known or potential den sites and thick vegetation
- Do not allow dogs to interact with coyotes

Be Prepared!

If You Have Concerns About an Encounter With A Coyote:

- Recreate during daylight hours
- Walk with a walking stick
- Keep a deterrent spray handy
- Carry noise makers or rocks to throw

Call your local Parks & Wildlife office or Denver headquarters at (303) 291-7227 or visit www.cpw.state.co.us to learn more about coyotes.

COLORADO PARKS & WILDLIFE

Deterrents Can Teach Bears to Stay Away

Help Keep Bears Wild

© ESTES PARK TRAIL GAZETTE/ (HAZELTONS)

like most wildlife, bears will learn to ignore these type of devices, quickly figuring out they're all bark, no bite. Still, the commotion can alert you to the presence of an intruder of some sort.

If you're reviewing options, products that randomly produce a different noise each time they're activated or have lights that flash in different patterns may be more effective than something with a single repetitive sound or a light that simply comes on for several minutes.

Radios

Leaving a radio tuned to a talk show can make it sound like someone is home and may persuade bears to leave the area. It's the human voice that does the trick; music doesn't seem to have any effect. If you'll be gone for an extended period of time, you can put a radio on a timer. Some people have found this to be an effective technique in chicken coops as well.

Scent Deterrents

A bear's nose is 100 times more sensitive than a human's. If you find bleach or ammonia fumes unpleasant, you can imagine what they smell like to a bear. Bleach or ammonia-based cleaners are good for trash cans and other areas where strong scents could attract bears. Some people have had some success with covered buckets or other containers filled with bleach or ammonia, with holes punched in the lids to let the scent out, placed outside bear-accessible doors and windows. Bears also dislike the strong scent of pine-based cleaners, but avoid using anything with a fresh, lemony or fruity smell. And never mix bleach and ammonia; the combination produces fumes that can be deadly to both people and bears.

Warning: Ammonia Can Blind Bears

Some sources recommend ammonia-filled balloons covered with honey or peanut butter as a deterrent; theoretically when the bear tries to bite the balloon, it gets a face full of ammonia instead of a treat. But an eye full of ammonia or bleach is more than a deterrent – it can seriously injure or blind a bear.

Bears are always on the lookout for food sources. Like most animals, bears are interested in finding the most calories they can for the least amount of work. Every calorie a bear can save is a calorie that can help it fatten up and live through the winter. Bears that have been rewarded with an easy meal for poking their nose into someone's bird feeder, garbage can or garage will often investigate any similar food sources in their home range. Sending bears on their way empty-pawed helps protect your home and property, and teaches the bear a lesson that could save its life.

Deterrents can be useful in areas where bears have already learned that where there are people, there is usually easy-to-get-at food. The purpose of a deterrent is to make your home less attractive and persuade an exploring bear to move on.

The best deterrent of all is to make sure there's nothing at your home or on your property to attract bears in the first place, so be sure to review our *Living with Bears* brochure and fact sheets for bearproofing tips.

Electronic Deterrents

Motion activated lights, noise makers and alarms

A bear may be sufficiently startled by flashing lights, noise makers, alarms and sprinkler systems to leave the area the first time, but if nothing else happens to reinforce the experience, studies show,

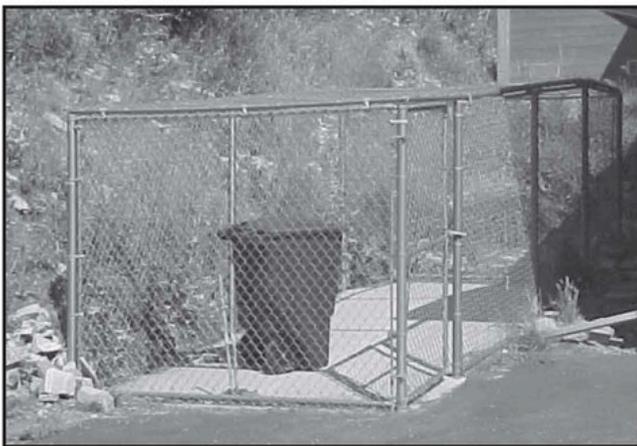

Bear Spray is Not A Deterrent

Bear pepper spray is meant for defensive use in a close encounter with a bear that has escalated into a charge. (See *Hiking and Camping in Bear Country* for more information on bear spray and bear encounters) Unfortunately spraying bear spray on things you'd like bears to avoid doesn't work — when the spray dries, the pepper residue left behind mellows out and creates odors that can actually attract bears.

Barrier Deterrents

Ordinary chain-link, wood or vinyl fencing won't keep out bears. Bears are great climbers and can easily scoot up and over fencing if there's something on the other side they really want. Black bears are also good diggers and can tunnel underneath fencing as well.

Enclosures

© CLAIRE SECHRIST/DOW

If you can't store your garbage inside a sturdy, locked building, a heavy-duty chain-link fenced enclosure with a chain-link "roof," concrete pad bottom, and locking (not latching) gate can help keep out your average bears — but smells will still attract them, as well as other wildlife, so you will need to be extra vigilant and make sure there are no other food sources around.

© TOWN OF SNOWMASS VILLAGE

In areas with high bear activity, it's better to secure trash inside the house, in a sturdy locked garage, or specially constructed outbuilding with concrete or cinder block construction with heavy duty wood or steel doors and roof. Sides need to be flush with the ground, with no more than a 2-inch gap at the bottom of the doors. Ventilation holes should be kept to a minimum and covered with heavy-gauge steel mesh.

Electric Fencing

A properly installed and maintained electric fence is an excellent bear deterrent, and proven to be effective at turning back bears. Electric fencing can be used to protect gardens, fruit trees, livestock pens and even campers, trailers and vacation homes. It's important to check local regulations to see if electric fencing is permitted in your area, and to read and follow all of the manufacturer's installation requirements and directions. You'll find detailed information on how to install an electric fence on our website.

Unwelcome Mats

© JIM TIFFIN

SOME PEOPLE USE ROT RESISTANT CEDAR FENCING TO CONSTRUCT UNWELCOME MATS.

Unwelcome mats are typically made of sheets of sturdy plywood that have been carefully studded with small nails pointing up that can be placed in front of bear-accessible doors and windows. They've been shown to be very effective at deterring bears, and are sometimes used to protect summer and vacation homes when owners are away. Unwelcome mats can also be used on a temporary basis if there is a bear active in your neighborhood. It's very important that unwelcome mats be made, installed and used properly to avoid injuring bears or human or canine visitors.

For more detailed information on creating you own mats, see the fact sheet *Unwelcome Mats*.

Bearproofing Your Trash

Help Keep Bears Wild

Garbage Kills Bears

Allowing bears to use trash and garbage as a food source creates serious problems for both people and bears. Because the food reward is so great, bears are willing to work hard to get at trash and garbage, and return often in hopes of finding more. These food-conditioned bears sometimes enter homes, garages or even vehicles in search of an easy meal. Bears in pursuit of such a good source of calories can do a lot of property damage, and even become aggressive. Allowing bears to get into the garbage is one of the leading causes of human-bear conflicts. Being smart about how you handle and store your trash can protect your home and property, and help keep bears alive and wild.

© Michael Seraphin/CPW

Lock it Up

Keep trash and recyclables safely locked inside your home or a sturdy, locked garage or outbuilding constructed of heavy wood or metal. Don't leave any trash outside overnight; even empty bottles, cans, packages and recyclables have odors that attract bears. Don't store trash on your deck or screened-in porch, and don't stash your trash in your car, truck or camper. If you keep trash in your garage or an outbuilding, it should have sturdy doors and windows that lock. Put trash out the morning of pick up only.

Use a Bear-Resistant Enclosure

Ordinary chain link, wood or vinyl fencing won't keep out bears. Bears are great climbers and can easily scoot up and over fencing if there's something on the other side they really want. Black bears are also good diggers and can tunnel under-neath fencing as well.

© Claire Sechnist/CPW

If you can't store your garbage inside a sturdy locked building, a heavy-duty chain-link fenced enclosure with a chain-link "roof" and a concrete pad bottom and a locking (not latching) gate can help keep out your average bears. Just remember that garbage in an enclosure still gives off odors that attract bears and other wildlife, so it's very important you always remember to lock the enclosure, and check your home and property often to make sure there's nothing else for bears to explore after they give up on the trash. See our brochure on Living with Bears and our fact sheet on bear proofing your home for more information.

In areas with high bear activity, it's better to secure trash inside the house, or a sturdy locked garage or specially constructed outbuilding with concrete or cinder block construction with heavy duty wood or steel doors and roof. Sides need to be flush with the ground, with no more than a 2-inch gap at the bottom of the doors. Ventilation holes should be kept to a minimum and covered with heavy gauge steel mesh.

Freeze It

You can reduce odors that attract bears by keeping smelly items out of the trash until pick up or you're ready to take it to the dump. Keep a bag or container in your freezer for any bits of food, meat, bones, fruit or anything else that's likely to give off odors. Then just throw out the bag the morning of pick up, or when you take your trash to the dump.

Keep it Clean

Clean your trash containers frequently with ammonia or bleach solutions, or use a heavy-duty pine-scented cleaner. Avoid using anything with a fruity or lemony scent to clean trash cans or anything else outside. You can use a heavy-duty air freshener designed to remove odors on the inside of the lid to help cut down odors. Double bagging trash or using special bags that eliminate or contain odors can help as well. Just remember never to leave plastic bags of trash outside of the container. Of course, don't mix ammonia and bleach; doing so produces dangerous fumes that can be deadly for both people and bears.

Use a Bear-Resistant Container

Even sturdy metal or plastic trash containers with snap-on lids are not bear resistant. Bears use their paws much like people use their hands and can often just pop off or unlatch the lid.

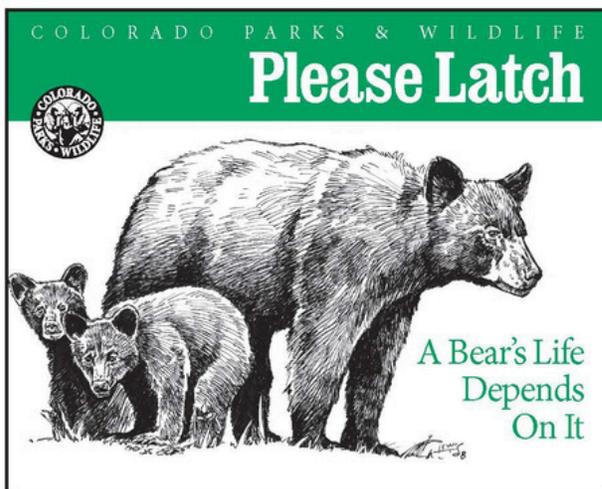

Bears are also very strong, so if the lid doesn't pop off, it's not much effort for a bear to dent, crack or split an ordinary can. There are a wide variety of bear-resistant containers available,

from your typical 35-gallon household container to dumpsters. For a complete review of bear resistant options, visit the Living with Wildlife Foundation's website at www.lwwf.org.

This non-profit organization tests and certifies containers for the International Grizzly Bear Committee. There's also a comprehensive list of containers on our website at www.wildlife.state.co.us/bears — just scroll down under **Living with Bears**.

If you have curb side pick up, check with your trash collection service to make sure they'll service bear-resistant containers. If they won't, you can do the bears, yourself and your neighbors a favor if you encourage the company to do the wildlife-friendly and responsible thing, and service containers that don't put bears at risk.

Central Trash Collection

This weather-resistant sticker is a great way to remind people that a bear's life could depend on them taking the time to latch the dumpster. You can get free stickers at your local Colorado Parks and Wildlife office.

If you take your trash to a dumpster, please do your part to avoid attracting bears, and never leave trash outside the dumpster. Make sure the lid is securely closed and latched. If your dumpster doesn't have a latching lid, or has a flimsy plastic lid bears could easily peel back, ask your trash hauler to provide a bear-resistant dumpster. Some homeowners associations and neighborhoods that want to help prevent problems for themselves and the bears have worked with their trash companies to replace plastic lids with sturdy metal ones that chain and lock, which can be a cost-effective alternative to a new dumpster.
