HOLIDAY LIGHTS

The updated Outdoor Lighting chapter is based on national and international lighting best practices.

Updated policies focus on key areas, including:

- Reduce obtrusive and glaring light that inhibit human vision and detract from enjoyment;
- Curtail light pollution and improve nighttime environment for residents, visitors and astronomer enthusiasts;
- Protect local and migrating ecological systems from the adverse effect of artificial light;
- Minimize light trespass across property lines so as to avoid disturbing neighbors and restricting access to nighttime darkness as a shared natural resource;
- Bring clarity for applicants and Town review staff in evaluating lighting performance standards during the development review process;
- Differentiate residential and commercial lighting needs.

Additionally, seasonal lighting is deemed temporary between November 15 and January 31 in residential areas, and November 15 and March 1 in commercial areas, as stated in the code. Seasonal lights contribute to light pollution, attract wildlife, increase unnecessary energy usage, and when wrapped around trees, constrict their ability to grow.

Continued illumination of seasonal lighting after January 31 in residential areas, and March 31 in commercial areas, is a violation of the Land Use Code and could result in being summoned to Municipal Court.

What you need to know about Snowmass Village's **Outdoor Lighting Code**

Why change the code?

- The Lighting Code revisions enhance the Town's character and livability, prevent non-compliant outdoor lighting, reduce lighting conflicts between property owners, prevent the increase of sky glow, and preserve the naturally dark sky for the benefit of residents, visitors, wildlife, and the environment.

What do I need to know?

- Passed by Town of Snowmass Village Council on September 2, 2025.
- All outdoor lighting must comply with the outdoor lighting regulations in Chapter 16A of the Town's Municipal Code.
- The Town has moved to measuring light by lumens rather than watts.
- All clear-lensed point light sources must be shielded. Any unshielded light source must use a non-clear, clouded material as the primary lens to reduce glare from the light bulb.
- The Town works on a complaint basis. The person complaining must identify themselves and submit a formal complaint in writing.
- All lighting trespass, seasonal lighting, curfew regulations, and curfew hours begin September 17, 2025.

IS YOUR CAR READY FOR WINTER DRIVING?

From September 1st through May 31st, all vehicles operating on any roadway must be equipped with adequate snow tires or tire chains. Don't only rely on the 4-wheel drive; having adequate tires is essential.

Remember, you could be issued a citation if you get caught with improper tires. Do you know where that snowbrush/ice scraper is? After a storm, please clear the entire windshield and brush off the headlights and taillights!

Questions on adequate snow tires? Contact the Snowmass Village Police Dept. at 970-923-5330.

Town of Snowmass Village
Winter Safe Driving Tips

- 1 DRIVE SLOWLY** - Slippery roads reduce the amount of traction your tires have, and winter conditions make it more difficult to control a vehicle. Always adjust your speed down to account for lower traction when driving on snow or ice.
- 2 ACCELERATE AND DECELERATE SLOWLY** - Apply the gas slowly to regain traction and avoid skids. Don't try to get moving in a hurry and take time to slow down for a stop and turns. Remember that tire traction diminishes on icy roads.
- 3 INCREASE YOUR FOLLOWING DISTANCE** - Allow plenty of space between your car and other vehicles. This increased margin of safety will provide the longer distance needed if you have to stop.
- 4 DON'T STOP IF YOU CAN AVOID IT** - There's a big difference in the amount of inertia it takes to start moving from a full stop versus how much it takes to get moving while still rolling.
- 5 DON'T POWER UP HILLS** - Applying extra gas on snow-covered roads will just make your wheels spin. Try to get a little inertia going before you reach the hill and let that inertia carry you to the top. As you reach the crest of the hill, reduce your speed and proceed downhill slowly.
- 6 DON'T STOP GOING UP A HILL** - There's nothing worse than trying to get moving up a hill on an icy road. Get some inertia going on a flat roadway before you take on the hill.
- 7 STAY HOME WHEN POSSIBLE** - Only go out if necessary. Even if you can drive well in bad weather, it's better to avoid taking unnecessary risks by venturing out.

SNOW REMOVAL IN TOWN

The Town of Snowmass Village Road Division follows a snow removal plan each winter season. Town crews use a mix of equipment and technology to remove snow from public roadways and areas throughout the season. This creates a safe environment for motorists and pedestrians who utilize public transportation corridors. The Town prioritizes roadways according to traffic volumes, public safety requirements, bus routes, and access for emergency equipment.

The Town's fleet of snow removal equipment is prepared and ready as soon as snow is forecasted. Crews are scheduled from 5:30 a.m. to 10:30 p.m. seven days a week during the winter season and use three plow-and-sand trucks, two front-end loaders, and a motor grader to plow the Town's 39 miles of roadway.

The first priority for crews is major arterial roadways (Brush Creek Road, Carriage Way, Highline Road, and Owl Creek Road). The second priority is collector streets (Daly Lane, Divide Road, Horse Ranch Drive, and others). The third priority is other residential streets and parking lots.

SHORT-TERM RENTAL (STR) PERMITS

The Town Council has approved an increase to the Short-Term Rental (STR) permit fee. Effective January 1, 2026, the STR Permit Fee will be \$400.

Renewals appear in the system 60 days prior to their due date, so please note that any renewals due on or after December 31, 2025 will reflect the updated fee.

A few important reminders:

- Change of Ownership: You must notify snester@snowmass.gov when there is a change of ownership, as a new permit is required. This is not optional.
- Sales/Lodging Tax: Sales/Lodging tax must be remitted by the 20th of each month.
- Account Users: Please do not press the “Remove User” button. If a user needs to be removed, contact snester@snowmass.gov for assistance.

If you have any questions, please feel free to reach out to snester@snowmass.gov.

PLEASE RESPECT WINTER CLOSURES!

THIS AREA AND TRAILS WITHIN PROVIDE HISTORICAL WINTER RANGE FOR DEER AND ELK.

HARSH WINTER MONTHS ARE TAXING ON THESE ANIMALS, ESPECIALLY PREGNANT FEMALES, AS THEY BATTLE DEEP SNOW AND DECLINING ENERGY RESERVES WITH FOOD BECOMING SCARCE.

What you need to know about...

Wildfire Ready Snowmass Village

Resilience = Science + Community Engagement

- Together, we can make Snowmass Village stronger against wildfire.

Wildfire is one of the greatest risks facing Snowmass Village

- To reduce our risk, we're undertaking the most cutting-edge wildfire modeling available — and we need your help.
- This model will show how fire could spread here and which actions will best protect our homes. But for it to work, we need your home's data.

What you can do

- Take the Snowmass Wildfire Risk Survey — it's short, confidential, and every response counts.
- Share with your neighbors.

UNDERSTANDING AND REDUCING WILDFIRE RISK IN SNOWMASS VILLAGE

The Town of Snowmass Village, in partnership with Roaring Fork Fire Rescue and the Wildfire Collaborative Roaring Fork Valley, is launching a cutting-edge wildfire risk modeling project to help our community better understand wildfire exposure—and take the most effective steps to protect our homes and neighborhoods.

What Is the Project?

At the heart of this initiative is a state-of-the-art tool called AGNI-NAR (Asynchronous Graph Nexus Infrastructure for Network Assessment of Wildland-Urban Interface Risk). Developed by Dr. Hussam Mahmoud—a leading wildfire risk expert and Director of the Vanderbilt Center for Sustainability, Energy, and Climate—AGNI-NAR offers a new way to model how wildfire can move through both landscapes and neighborhoods.

Unlike traditional wildfire models, AGNI-NAR uses graph theory to simulate how fires can spread from vegetation to homes—and from home to home. It accounts for factors like wind speed, ember travel, and evacuation pathways, making it one of the most advanced tools available for community-level wildfire risk assessment.

Why This Matters

With fire seasons growing longer and more intense, understanding local risk is critical. This model will help identify:

- Which homes or areas are most at risk
- How a fire might spread across the terrain and built environment
- The most effective mitigation strategies—like defensible space, building materials, and evacuation planning

For more information on wildfire resiliency, please visit tosv.com/594/Wildfire-Mitigation and rfwildfire.org/

UNDERSTANDING AND REDUCING WILDFIRE RISK IN SNOWMASS VILLAGE

We Need Your Help

To build the most accurate model possible, we need participation from Snowmass Village residents. A short survey is now available to collect important details about your property—such as roof type, nearby vegetation, and building materials. These details directly impact how fire behaves, and your input is essential.

Take the Snowmass Wildfire Risk Survey

The more residents who participate, the more accurate and useful the model will be.

Community Outreach and Collaboration

Over the coming weeks, our team will host HOA and community meetings across Snowmass Village to share more about the project, answer questions, and encourage participation.

This project is part of a broader regional effort by the Wildfire Collaborative Roaring Fork Valley, a partnership launched in 2022 to unite fire agencies, local governments, and community organizations in a shared strategy for wildfire resilience.

By combining science, collaboration, and on-the-ground action, we're working to protect what we value most—our homes, our community, and our future.

For more information on wildfire resiliency, please visit tosv.com/594/Wildfire-Mitigation and rfwildfire.org/

TOWN CONSTRUCTION PROJECT UPDATES

The Town of Snowmass Village works year-round to provide core municipal services such as snow removal, road and infrastructure maintenance, transit, and transportation services, parks and trails maintenance, recreation programs, public safety, and strong fiscal management.

Occasionally, the Town also works on special long-term projects and initiatives. These projects typically span multiple years, and the Town seeks community input and participation to make them a success.

Roundabout at Brush Creek & Owl Creek Roads

What's happening at this intersection?

- The proposed roundabout replaces the existing intersection and also includes pavement reconstruction, additional bus stops, pedestrian walkways, retaining walls, storm drainage, utility improvements, and multimodal trail improvements.
- This project improves the safety of the intersection for all users.

Why a roundabout?

- Improving this intersection with a roundabout improves its safety and functionality for all users - motorists, bicyclists, pedestrians, and transit services.
- This construction will allow the Town and its partner agencies to update critical underground utilities & other infrastructure.
- This intersection currently operates at a *failing level-of-service*. Safety is compromised during inclement weather, busy times of the year, and other operating conditions.

SNOWMASS HOLIDAY LINEUP

Wintersköl in Snowmass

Wintersköl, a beloved 74-year tradition celebrating “a toast to winter”, takes place December 11-14 in Aspen and Snowmass Village. For the full Wintersköl calendar, please visit aspenchamber.org/events/winterskol.

Winter Windows returns for its second season during Wintersköl, December 11–14, with an awards ceremony on Friday, December 12, and community voting open through December 2025. Now expanded to include Snowmass Base Village, Winter Windows is a partnership with Buckhorn Public Arts. Roaring Fork Valley artists and designers are paired with businesses along the Snowmass Mall and in Base Village to create window displays that celebrate the winter season and the character of Snowmass. Winter Window displays remain on view through December 2025.

The Collective Snowmass hosts the Winter Holiday Market, December 12 from 5:00pm-8:00pm and December 13 from 1:00pm-5:00pm in the Snowmass Conference & Events Center in Base Village. The Winter Holiday Market features 20+ local artists from the Roaring Fork Valley. Discover unique, handcrafted gifts and one-of-a-kind treasures, perfect for everyone on the list. Also taking place on December 12, local photographer Tamara Susa celebrates the launch of her new photography book, *Four Seasons in Snowmass*. Over the past decade Susa has photographed Snowmass’ changing moods including the first dusting on the ridgelines, alpine meadows bursting with wildflowers, and quiet, snow-blanketed trails, all creating a visual tribute to the landscape’s subtle seasonal beauty.

Holiday Merriments Around Snowmass

Snowmass Village lights up for the holiday season on Friday, December 5 at 5:30pm with the annual Light Up the Night tree lighting ceremony at and around the Snowmass Chapel. Enjoy cocoa, carols, a countdown, and an in-person visit from Santa Claus. Over 40 trees light up the night, making for a stunning picturesque display.

Celebrate Hanukkah at The Collective Snowmass with a large Menorah on display December 14- 22, 2025, and a special Menorah Lighting Ceremony on Monday, December 15 at 6:00 pm. The Collective Snowmass comes alive with even more merriment in Santa's Village, December 21-24, complete with nutcrackers, inflatable snowmen, decorative lights, candy canes, art workshops, crafts, music, comedy, and more. Guests can take free photos at a festive photobooth daily. Real reindeer take center stage on The Collective patio on December 21, 22, and 23 from 4:00 pm to 6:00 pm. Santa also comes home to Santa's Village, while Sensory-Friendly Santa, in conjunction with Challenge Aspen, and Dog Santa make an appearance.

Join Anderson Ranch Arts Center on December 17 from 5:00 pm to 8:30 pm for a celebratory evening of creativity and community. The Winter Benefit Dinner features a family-friendly art-making activity, a studio tour, a thoughtfully prepared farm-to-table dinner, and a live auction showcasing bespoke Ranch experiences and artworks. Proceeds directly support the Ranch's artistic programming.

Rock Island Oyster Bar and Grill commemorates New Year's Eve with a swinging party featuring live music and complimentary champagne at midnight. Reservations are highly recommended, and the kitchen is open late. Walk-ins are welcome, and there is no entry fee.

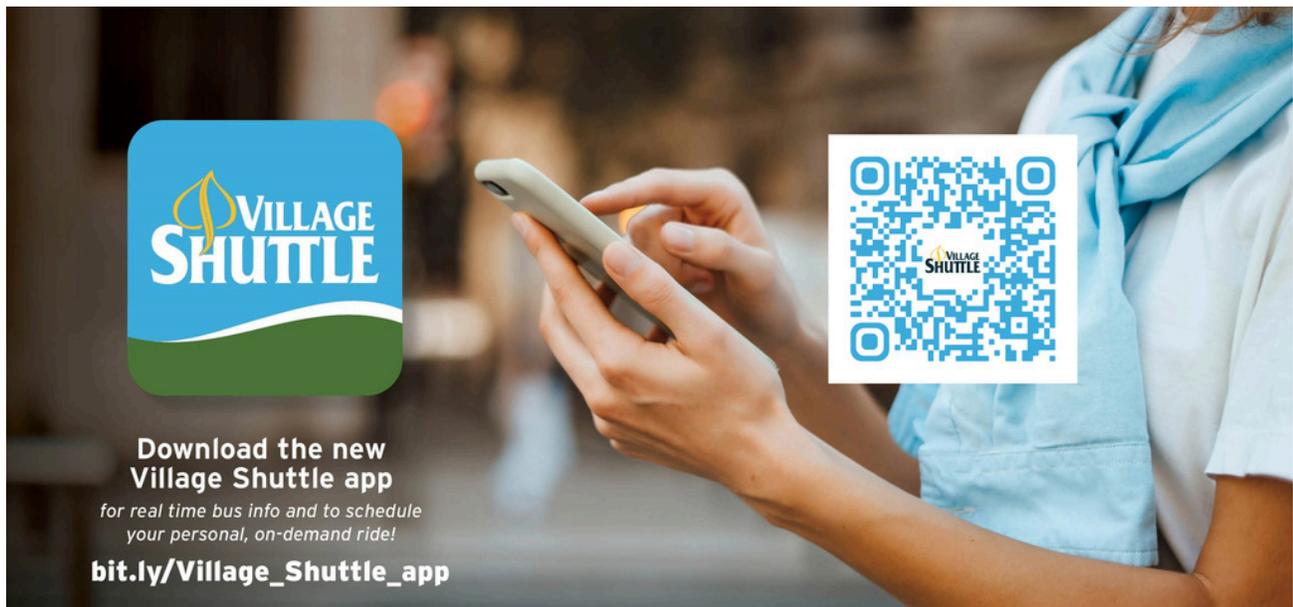

The Collective Snowmass hosts a festive, family-friendly, New Year's Eve celebration from 7:00 pm to 10:00 pm featuring DJ Tenza, party favors, an East Coast ball drop, and a complimentary champagne toast. Keep the party going with bites and drinks from Slope & Hatch, the newest addition to Base Village and a Roaring Fork Valley favorite, serving up tacos, hot dogs, loaded fries, great beer, and craft cocktails.
